[Resale Rights License For Reprint Rights Marketing](#)

This is what I consider to be the best license currently on the market. Here you will read how you can get a license to resell memberships to Allan Wilson's [reprint-rights-marketing](#) and [infoproductmarketing](#) membership sites...

Why settle for just selling individual products when you can resell access to an entire membership site and earn a residual income?

You keep 100% of the profits from every membership you sell.

A FEW WORDS BEFORE GETTING STARTED

Many people interested in buying a Pit Bull really don't know exactly where to look. Or, it can become a very daunting task overtime with all the available Pit Bull Breeder sources out there. So, hopefully, this list will help you choose the Breeder and puppy that's just right for you and your family.

Something to remember while perusing through this listing is that each of these resources listed here were found online and were current at the time of this writing. As the internet changes, so do companies. Things come and go. Such is the way of the ever changing world ☺.

Another important point to ponder is that not everything that is written is true. So be very careful when deciding on a "Bully" Breeder or Kennel. Not everyone is as honest as he or she **should** be, and you'll do well to keep this in mind when searching for the perfect Pit Pup. Check out each source that interests you from this list. Then **double check** it just to be sure.

If you are ever unsure about **anything you read or see** on any of these Breeders websites, simply contact them either by phone(if they offer one), or email to get the answers you need. The Kennel(or Breeder) should contact you within a reasonable amount of time with all the information.

I do not personally endorse any of these Kennels or Breeders listed here. I have included them within this handy little centralized area for your convenience only for those looking to purchase a Pit Bull puppy.

Each one should be evaluated by you and be acceptable with the standards you set. I will not tell you that one is better than any other listed here as I have not personally dealt with any of them. This is not to say that you shouldn't, just that I have not had the need to just yet ☺.

I wish you the very best of luck and hope that you find the puppy that you're looking for with one of the Breeders or Kennels listed here. There's lots to look through, so you better get started!

P.S. – There are no “live” links within this ebook, except for the one that leads off to my ebook website. Understand that the names of the Kennels and Breeders have been listed first, then underneath them are the links leading directly to their site. You will need to switch to the text tool and copy the links pasting them to your browser of choice. I know this is a big pain, but it is the best way I could compile it for you with the resources I have ☺.
